Name and address of employer Cyberdefcon Ltd United Kingdom, PIC: 953632706
C/o Raoul Chiesa – Via Santorelli 15 – 10095 Grugliasco (TO) - ITALY

Type of business or sector CyberDefcon (<http://cyberdefcon.com>) is an independent organisation dedicated to the pursuit of making the internet a safer place. CyberDefcon develops cyber centres of excellence, militates against botnet based cyber-attacks and provides innovative services and tools that yield the information necessary to track down and resolve cybercrime. CyberDefcon provides some of the world's largest web hosts, registrars and financial institutions with cyber alerts on issues "before they happen", to be pro-active in security rather than reactive. Other services include: Security Relationship Management (SRM) through host remediation, botnet analysis, application testing, penetration testing, risk assessments, vulnerability reports, and bespoke cyber intelligence as required.

Through our not-for-profit websites HostExploit (<http://hostexploit.com>) and SiteVet (<http://sitevet.com>) we provide ground-breaking research and innovative reports and analysis on quantitative levels of malicious activity served from each of the 40,875 publically announced Autonomous Systems (ASN). Results are compiled in to an easy to understand format, known as the 'Top 50 Bad Hosts' league table, and announced publically in our quarterly reports. Individual AS reports are also available.

Work experience**@ Mediaservice.net s.r.l./PGCP Group**

Dates 1997-2007: Founder, CTO/Chief Technical Officer
2000-2003: CEO/Chief Executive Officer

B2/C1	B2/C1	B2/C1	C1 B2/C1	B1	

(*) [Common European Framework of Reference for Languages](#)

Social skills and competences

I really love to interact with InfoSec and IT-related people, communities, events, social networking. I'm doing it for over than 15 years and it seems like I know how to do it properly, both on official, institutional and underground environments.

Organisational skills and competences

I set up many Tiger Teams in many enterprises, including @ Mediaservice.net. Belonging to many Security Associations, I learnt how to organize, interact and lead focus groups, R&D groups etc.

Technical skills and competences

Being nearly 39, I moved from deep technical aspects to higher level organizational aspects, business issues, diplomacy and lobbying environments; nevertheless, I keep on updating myself on Communication Security, SCADA & NCI, Mobile Communication Security, Reverse Engineering, Hackers Profiling and much more. In the last years I focused my R&D areas on building methodologies and security frameworks.

Computer skills and competences

Linux, *NIX, *BSD, *VMS, MS Windows (all of them), Digital Forensics. I'm a powerpoint guru, as people say 😊

Artistic skills and competences	N/A
Other skills and competences	I love to travel all around the world giving speeches, training people, representing InfoSec related institutions.
Driving licence	Driving License, Cat. B (cars)
